DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14, 52-57 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. The structure called IVX presumably should be XIV
2. The XVIII structure is missing.
3. The structure after XXVIII should be called XXIX, rather than XIX.
4. In R4, PO_3M_1 is impossible. Perhaps there was intended $\text{PO}_3(\text{M}_1)_2$ or perhaps PO_3RM_1 or SeO_3M_1 . Or perhaps something else. For whichever choice is selected, applicants must show that one skilled in the art could have figured out that this choice, and not another, was surely intended.
5. On page 10, the variable n is defined, but the examiner cannot locate where it is used.
6. The combined choices, e.g. R19-R21, are not correct, as these do not together form a ring, but together plus other atoms for a ring. Combined together they would provide only a chain.

Claim Objections

Claim 51 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1624

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
